

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Schwarzes Brett

App URL:

<https://play.google.com/store/apps/details?id=com.simplestsoft.schwarzesbrett>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive feedback on the app. Additionally, we reached out to some of our target users, including local service providers and renters, to gather real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively provided valuable insights on app functionality, highlighting areas for improvement in user experience, layout, and onboarding. Their

engagement led to actionable changes, ensuring a better overall experience for future users and fostering community interaction.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers pointed out the need for optimized screenshots, improved ASO description, and a dynamic walkthrough for new users. Feedback was collected through surveys, direct communication, and usability testing sessions, helping us identify key areas for enhancement.

5) Who is the intended audience for your app?

Schwarzes Brett is designed for local community members seeking to offer or find services, rentals, and DIY assistance. It caters to landlords, renters, and individuals looking for help or tools, fostering connections within the neighborhood.

6) Describe how your app provides value to the users.

Schwarzes Brett connects users with local services and rentals, enabling easy communication through direct chat. By facilitating community interactions

without the need for intermediaries, it offers a convenient platform for finding help and resources in the area.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We optimized app screenshots to better showcase features, enhanced the app description for improved ASO, and developed a dynamic walkthrough for new users to streamline onboarding, ensuring a more intuitive and engaging experience for all users.

9) How did you decide that your app is ready for production?

After extensive testing and implementing feedback from diverse users, we addressed critical issues related to user experience and functionality. The app is now stable, user-friendly, and effectively meets the needs of our target audience, making it ready for production.

10) What did you do differently this time?

This time, we prioritized user-centric feedback collection and focused on optimizing key app elements like screenshots and descriptions. By ensuring a smoother onboarding experience and addressing usability challenges, we significantly improved the app's readiness for launch.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
